Mike and Jeff

Attached is my PPT. I'll also bring it on a thumbdrive.

I've embedded the Youtube video link in the presentation. But here it is below, if you want to load it up in advance.

<https://youtu.be/H0qpPaXPZYI>

Thanks!

Chris

Hi all,

Thank you for presenting at this year's Invasive Species Conference at Duke Farms!

The conference is being held at Duke Farms outdoors under the large white tent behind the Orientation Center. There will be full A/V capabilities and screens for those of you presenting using a slideshow. To streamline the process, please either bring your presentation on a USB drive or you can share it with me in advance so I can have it queued up and ready to go.

Please feel free to reach out with any questions, see you next week!

Best,

Jeff Geist (he/him)
